MAYOR'S ADDRESS.

Delivered in the City Hall,
Tuesday, Jan. 1, 1907.

GENTLEMEN OF THE CITY COUNCILS:---

In accordance with the requirement of the city charter, we are assembled on this new-year's day, to assume the duties and responsibilities, to which we have been elected, of conducting the business affairs of the City of Nashua.

Let us at all times, and under all circumstances, perform our duties as we would our own private affairs, always keeping in mind that we are servants of the whole people, bound to use economy and be prudent as we would be in handling the affairs of any other corporation.

Increase for 1906		$20,682.43

For many years it has been the custom of many departments to spend money regardless of their annual appropriations, leaving in some instances, a very large over-draft. City reports for the past years show a proper balance between appropriations and expenditures, and looks very good on paper.

But the modern custom is, when a department appropriation is expended, to continue contracting, purchasing and expending, as before; with an agreement and a distinct understanding, that the bills so contracted, be not presented for payment until the expiration of the financial year. To my mind, this amounts to financial dishonesty. Misleading and deceptive bills to the amount of $20,000.00 from last year, have been presented to this date. Forgive the past, but do not let it happen again.

ASSESSOR'S DEPARTMENT.

The Board of Assessors is composed of six members elected at large. It is one of the most important of the city departments. To this department is entrusted, in a large degree, the providing for the financial needs of the city, and much depends upon the

efficient and faithful work of its members. The business of the department has increased, with the growth of the city, to an extent demanding much more of the time and attention of the members than formerly. Much complaint is made that the office is not open every week day with other departments, but it ought not to be expected that the members of the Board give their entire time to this, at present salaries.

It is important, and desirable, that some arrangement be made whereby the office be open daily, at regular hours, for the better accommodation of the tax payers.

I recommend that the salary of the Clerk of the Board be raised to an amount sufficient to accomplish this result.

Total valuation as per Assessors' books for 1906, was $14,827,166.00.

Increase over 1905, $150,272.00.

Total amount raised by taxation in 1906, $311,371.99

Decrease from 1905 $2,714.59.

Number of Polls in 1906, 7072. Increase over 1905, of 75.

BOARD OF PUBLIC WORKS.

On this department we are dependant for making, care and maintenance, of highways, sewers, sidewalks, bridges and shade trees, for the location and supervision of electric light, telegraph and telephone poles, for wires, gas and water pipes.

This Board requires a large appropriation, and the tax-payers expect and are entitled to receive, a careful, prudent and economical expenditure of the funds annually appropriated for this Department.

Our streets are in fair condition. Besides small repairs during the past year, there were laid 5800 yards of Hassam pavement on Main Street, at a cost of $7,550.00, plus the excavating. The utility and durableness of this pavement is a problem that time will solve.

Some stone block paving has been relaid during the year, which was first placed thirty years ago and is now in good general condition.

Sewers have received good attention the past year and are well up to date.

The much-needed Burke Street sewer has been constructed, by special appropriation, from the Merrimack River to one hundred feet west of Newbury Street, a distance of 2800 feet, at a cost of $14,981.00, or $5.35 per foot. There have been expended for other new sewers $3,934.00, making a total for new sewers of $18,915.00 for the year.

It will be necessary to complete the Burke Street sewer the coming season 2000 feet to Salmon brook. Other small sewers will require attention. The Board of Public Works will in time make known their needs.

CITY FARM.

By courtesy of Mayor Jones I visited the City Farm on the day of annual inspection.

The house is neat, well-kept and shows pains-taking care of the Matron.

The stock is a credit to the management of Superintendent Wheeler. Everything shows that much credit is due Mr. and Mrs. Wheeler for their very able service.

For the past thirty years towns and cities have been disposing of their farms. At this time Nashua is the only municipality or town in Hillsborough County maintaining a town farm.

Originally a home for poor people, it is now largely a penal institution. The entire number of the inmates is 16, paupers two. The average number of paupers for the last five years has been 2 1-2.

The Farm given the best service to be obtained is a yearly drain on our treasury. I would heartily recommend its sale when it can be properly accomplished.

CEMETERIES.

Your cemeteries are in three separate divisions, managed by three boards of trustees, without salary, created by special act of the Legislature of New Hampshire.

The able and faithful management of your trustees has brought the several cemeteries to a condition that is second to none in the state. Their appropriations have been well and honestly administered.

They should severally receive from you that consideration which will enable them to continue their good work now so well begun.

CITY TREASURER.

The salary now paid the City Treasurer is $300.00 per year, which is the salary voted by the City Councils of 1887, twenty years ago. In that year, 1887, there was given to the city Tax Collector for collection, the sum of $157,575, and in 1905 there was given the collector the sum of $314,086, twice as much as in 1887.

There has also been added to his duties, departments for which he acts as treasurer, to wit, the Park Commissioners, Suburban, Woodlawn and Edgewood Cemeteries, Police and Fire Departments.

Now in view of the above facts, I recommend that the City Treasurer's salary be made a sum that will correspond to the increased duties he has to perform.

I would also recommend, that the city advertise for bids for its deposits, and deposit with that bank which will pay the best per cent. on an average monthly balance.

FIRE DEPARTMENT.

This department is organized with a board of three commissioners appointed by the Board of Mayor and Aldermen.

That we have a very able commission the high efficiency of the department shows. Their labors have been successful. The fire force of permanent, and the "call men" are alert, reliable and faithful to duty.

The Fire Commissioners in last year's report to the City Council, recommended the purchase of a Combination Aerial truck and a larger Repeater for fire alarm service.

The apparatus of this department is up-to-date in every respect except as above named.

The need of an Aerial truck (estimated cost $5,500.00) for service in the center of the business district where the buildings require, in case of fire, an eighty foot ladder, in place of the forty-five foot ladder which is the longest length of ladder in present equipment, is evident. Should a serious fire occur in any of our large buildings, the department would be seriously handicapped for want of proper ladder service.

Regarding the fire alarm service, the Repeater, a four circuit machine, has been in service since the fire alarm was installed in 1886. It is overloaded beyond its capacity, and I am informed by the commissioners that a Repeater with the capacity of eight circuits, (estimated cost $1,800.00) is needed at once to insure perfect service.

In my opinion, both of the above pieces of apparatus, the Aerial truck and the Repeater, are certainly needed. The installation of a large Repeater is imperative.

I would recommend that you give the subject serious attention.

POLICE DEPARTMENT.

This department is conducted by three police commissioners appointed by His Excellency, the Governor, with the advice and consent of the Council.

The growth of our city increases the duties and responsibilities of this department and it is our duty to assist the commissioners in their endeavors to give the city proper protection, good order and enforcement of laws.

The Police Commissioners are necessarily well informed as to the requirements of the department, and their judgment should be given much consideration. Through their efforts the city has been equipped with a police signal system which is a valuable addition to this department, and should be inspected by members of the City Councils and citizens generally. With this excellent signal system the city needs a patrol wagon and better ambulance service.

I would recommend that this matter be given early consideration, and that provision be made for the installation and maintenance of such patrol and ambulance service as shall not cause extravagant expenditure.

PARK COMMISSION.

This department has been handicapped by a very small appropriation.

Some of our public parks and grounds should be in better condition and are in need of civic betterment.

They should be more liberally remembered when the condition of our finances will warrant it.

STREET LIGHTS.

Your streets are now well lighted by incandescent and arc lights, which are furnished by contract by the Nashua Light, Heat and Power Company. The cost of lighting last year was $27,342.

This sum admonishes us that there ought to be no more lights installed, except where they are absolutely needful for the public good.

SCHOOLS.

This is one of our most important departments. Its needs are best known to the Board of Education.

I make no recommendations except to urge upon the Board of Education the strictest economy consistent with the highest efficiency of the school system of our city. Appropriation and receipts from all sources $74,500; expended $81,848; overdraft $7,348.

In conclusion, I desire to heartily thank the retiring Mayor, the City Treasurer, the City Clerk, and all others in official position, who have courteously placed their services and records at my disposal, for such information as I desired.

I also desire to heartily thank the citizens of Nashua, who by their suffrages have placed me in this position of honor and responsibility, as Mayor.

And I hereby pledge my time and best abilities to make a worthy and business-like administration, so far as this depends upon me, during my term of office.

CITY TREASURER'S REPORT.

NASHUA, N. H.

To His Honor, the Mayor, and City Councils of Nashua:

GENTLEMEN:---I herewith submit the report of the city treasurer for the financial year ending Dec. 31, 1906.

Very respectfully,

WILLIAM E. SPALDING,

City Treasurer.

Dr. *Wm. E. Spalding, City Treasurer,*

Fire Alarm Telegraph.

This branch of the service should be improved by the installation of a larger and more up-to-date machine than the one now in use as the number of boxes have been doubled since its installation in 1885, and has now reached its limit in two of the four circuits. The outlay will be, approximately, $2,400.00 for an eight circuit machine in place of the four circuit machine now in use.

Instructions to Key Holders and Citizens.

1. Upon the discovery of a fire, go to the nearest box, turn key in lock, and hold bolt back with key, as it is a spring lock, pull down the hook as far as it will go; shut the door. Do not

try to remove the key, as it is locked in, and cannot be removed unless by one of the engineers, who will, as soon as convenient, release and return it.

2. All persons giving fire alarms should remain awhile beside the box so as to direct the firemen to the fire.

3. No person will give an alarm for the same fire after the first alarm has been given without an order from an engineer or the officer in command, and the person so ordered will be sure to go to the same box from which the first alarm was given and report to the chief engineer.

4. Never signal for a fire seen at a distance; never touch a box except to give an alarm of fire; do not give an alarm for a chimney fire.

5. Never let a key out of your possession unless called for by the chief engineer. If you change your residence or place of business where the keys are kept, return the key to the same officer.

Apparatus and Hose.

The apparatus consists of four Amoskeag steam fire engines, one one-horse reel, four two-horse hose wagons, four supply wagons, one hook and ladder truck, one combination chemical and hook and ladder truck, one Babcock chemical engine. All in first-class condition.

We have, at present, about 10,000 feet of fabric hose in good condition.

PAVING ON MAIN STREET.

From a point opposite Ayer's Building, southerly a short distance, the old stone block paving was relaid on a 4 inch Hassam concrete base and the joints grouted with Portland cement. From this point to Pearl street Hassam pavement was laid by the Hassam Paving Company of Worcester, Mass., this company binding themselves in the sum of $1800 to keep the pavement in repair for a period of five years.

Hassam pavement and method of laying same can best be described by the following extracts from the specifications:

Preparation of Road Bed.

The surface of the road bed as excavated by the City shall by the contractor be thoroughly compacted and shaped by ramming or rolling until the surface shall be parallel to and six (6) inches below the top of the finished grade, as given by the City Engineer.

Thickness.

The thickness of said pavement shall be six (6) inches when rolled and finished.

Construction of Pavement.

Upon this sub-grade, rolled and compacted as above, shall be layed a layer of crushed Trap Rock, which shall be sound and solid, free from dust and dirt, and of such size as will pass through a two and one-half (2 1-2) inch ring, which shall be thoroughly rolled and compacted to a depth of four (4) inches. This shall then be grouted, until all voids are filled with a grout of Portland cement and sand mixed in the proportion of one (1) part cement to four (4) parts of sand by measure. Upon this foundation shall be spread a layer of grout mixed in the proportion of one (1) part cement to three (3) parts of sand by measure, and upon this a layer two

(2) inches thick after rolling, of chestnut size Trap Rock stone, which shall be thoroughly rolled and then grouted with a thin grout mixed in the proportion of one (1) part cement to two (2) parts of sand by measure, after which it shall be again rolled, and then a thin coat of creamy grout mixed in the proportion of one (1) part of cement to one (1) part of sand, mixed with fine Pea stone, which shall be spread over the surface.

Expansion Joint.

Between the pavement and the curbstone on each side of the street shall be left a space about one (1) inch in width at top of pavement and about one-half (1-2) inch in width at the bottom of the same. This space shall be filled from top to bottom with paving pitch.

Sand.

The sand shall be clean, sharp, free from moisture, (made so by artificial heat if deemed necessary by the Engineer) and free from clay or loam.

Repairs.

It is agreed that if any repairs become necessary for any reason upon said pavement for the period of five years (5) from date of the completion, that the City is to notify the Contractor in writing, stating the nature and cause of said repairs, and that said repairs shall be made by the Contractor within thirty (30) days after the receipt of said notice, except in case of frozen weather, when the said time shall be extended to the first of May.

It is further agreed that if said repairs are necessary by any fault of said pavement, or of said Contractor, then said Contractor shall pay the entire cost of said repairs. But if the cause of said repairs shall be other than the fault of said pavement, or of said Contractor, then said City shall pay to

said Contractor two dollars ($2.00) per square yard for each square yard so repaired. Said payment to be made on or before the second day of the month following the month in which said repairs were made.

The cost of this work was as follows:

5169.0 square yards Hassam Paving at $1.30		$6,719.70
189.4 square yards block relaid on 4 inch Concrete base at $1.25		236.76
		$6,956.46
Labor on excavation	$575.02	
Incidentals	60.61	
		635.63
		$6,592.09
Nashua Street Railway paid for 18 inches outside of rails		369.09
Total cost to City		$6,223.00

REPORT

OF THE

POLICE COMMISSIONERS

OF THE

CITY OF NASHUA, N. H.

1906.

To His Honor, the Mayor, and Board of Aldermen:—

The Board of Police Commissioners for the City of Nashua respectfully submit their fifteenth annual report for the year ending December 31, 1906.

At a special meeting held on January 1, 1906, the Board organized with Frederick D. Runnells as Chairman and James B. Crowley as Clerk, Mr. Crowley having been reappointed a member of the Commission, for the term of five years.

During the year twelve regular and four special meetings were held, and complaints were made against three officers and hearings granted them. During the year Captain Mark R. Watson and Officer Regis Courtemanche were removed by death, and on August 1st, Filmore J. Dubrey was promoted to captain, and Frank B. Fletcher added to the regular force. On December 6th, Lewis A. Davison was added to the force, to fill the vacancy caused by the death of Officer Courtemanche.

Captain Watson and Officer Courtemanche were efficient, reliable and responsible members of the force, and had always fulfilled their duties well and faithfully.

Recognizing the advisability of adding a Patrol Wagon to the police equipment, and appreciating the great advantage such addition would prove to the efficiency of the police work the commission requested the City Government to enlarge the Police Station, and purchase a Patrol Wagon. No definite conclusion or action was taken by the Government.

The following is a statement of the different offences for which arrests were made, and the number of the same, showing how disposed of, including the amount of fines, costs, and fees received and paid over to the City Treasurer.

Librarian's Report.

To the Trustees of the Nashua Public Library:—

GENTLEMEN:—The annual report of the work done by the Library during the year 1906 is herewith respectfully submitted for your consideration.

At this date the Library contains 25,528 volumes, which number does not include unbound periodicals, newspapers and some of the government documents.

The additions have been 920 volumes, of these 134 were given, 39 by binding magazines, the others by purchase. Forty-six

worn out books have been discarded, most of these have been replaced. Of the nine books lost five have been paid for. A number of volumes can not be accounted for. It is hoped they are only borrowed from the shelves and will be returned. We do not like to entertain the thought that open shelves prove too great a temptation for any of our citizens.

The aggregate circulation of books in both departments of the library, not including the use of books in the reading-room, was 64,476. Of this number 14,585 were given out in the children's room. The capacity of this room is often tested to its utmost, and the shelf room is insufficient. There has been a decrease in the fiction circulation in the main library. This may be in a measure owing to our inability to supply the demand for the latest fiction. This year we have subscribed to the Booklovers and Tabard Inn libraries, in place of the Bodley library. From the Booklovers we have later books than we had before, but even this library is disappointing, not giving as many of the new books as we wish. There would be more dissatisfied fiction readers than there now are, were we to discontinue our subscriptions to the libraries, for but few of the much advertised novels are worth purchasing for our own library.

There have been 459 volumes sent to the binderies this year.

In the autumn the New Hampshire Agricultural college loaned the library a collection of photographs showing the gypsey and brown-tailed moths in their various stages, and the destruction which they have made in different localities, hoping to awaken a deeper interest in efforts made for their extermination. They were exhibited in the reading room and attracted much attention.

The publication of the quarterly bulletins has been continued. The monthly additions are given in the daily paper, the Nashua Daily Telegraph kindly printing them, also continuing to give a copy of the paper for binding.

The circulating department of the library has been open 317 week days for the delivery of books from 9:00 A. M. to 8:30 P. M.

The children's room has been open the same number of days, the hours in this room are from 2 P. M. to 8 P. M. when school is in session, and from 9 A. M. to 12 M. in the morning and from 2 P. M. to 6 P. M. Saturdays and during vacations. The reading room hours are from 9 A. M. to 9 P. M. on week days, on Sundays from 2 P. M. to 5 P. M.

The number of borrowers have increased 410 during the year.

Perhaps we ought to be thankful for the small portion of the Hussey bequest received, but it is to be regretted that we could not have the entire legacy, it could be used with benefit to the library.

Mr. Holman who was for twenty-three years a member of the board of Trustees has been taken from us. Although ill for many years, he continued to visit the library and attend the meetings of the Trustees, his interest in whatever concerned the library never abating. We miss his cheerful presence and words of encouragement.

Respectfully submitted.

HARRIET CROMBIE, Librarian.

ANNUAL REPORT

OF THE

TRUSTEES OF WOODLAWN CEMETERY.

To His Honor, the Mayor, and City Councils of the City of Nashua, N. H.

GENTLEMEN:—The Trustees of Woodlawn Cemetery submit the following as their report for the year 1906.

We regret the loss by death, on Nov. 8, 1906, of our Superintendent, Mr. Geo. F. Sawyer, who had so faithfully filled the the position since the organization of the Association in 1895, and had also served as Superintendent under the old system for a number of years.

No Superintendent has as yet been elected to fill the vacancy caused by his death, but a selection will soon be made.

The management of the affairs at the grounds since the death of Mr. Sawyer has been under the direction of Mr. Wm. Snow, Florist, acting as Assistant Superintendent.

A much needed addition to the Tool house has been made, nearly doubling its capacity.

The small greenhouse connected with the Tool house, has been piped and connected with the heater.

Several yards of concrete have been laid to replace that worn out around the Tomb and other places in the yard.

Sewers have been laid to drain low places in the yard, which was made possible this year by reason of the new sewer on Kinsley and Blossom streets.

A large plot of land heretofore not improved has been surveyed, laid out and graded, which has made some very desirable lots.

Some new shrubbery has been set out in different parts of the yard to replace that which had died, and some to beautify the grounds.

A telephone has been placed in the yard for the use of the Superintendent, and patrons can communicate with him during such hours as the yard is open.

The walks, drives and buildings are in good condition.

There have been 136 interments during the past year, as follows:—Resident adults 77; out of town adults 41; resident children 10; out of town children 4; premature births 4.

Removals to other cemeteries 1; removed in this cemetery 4.

Six funerals have been held in the Chapel.

Seven soldiers have been buried the past year, making the total number of soldiers graves on January 1st, 296.

Twenty-seven lots have been graded and repaired. Five new lots have been graded.

Thirty headstones have been reset, and 35 sunken graves filled.

Fifteen lots have been sold and deeds given.

Twenty Bonds for Perpetual Care have been given for funds deposited.

A record of each meeting of the Board has been made.

Following is a statement of the condition of the perpetual care fund, and the financial transactions.

ANNUAL REPORT

OF THE

TRUSTEES OF EDGEWOOD CEMETERY.

To the Honorable Mayor and City Councils :—

The Trustees of Edgewood Cemetery present their fourteenth annual report, for the calendar year 1906 as follows :

The new drive from the Cushing Avenue entrance northerly has been brought up to grade and surfaced ; and with this improvement, we have, at but slight additional expense, been able to provide about 100 lots of small size. There is constant demand for such lots, which it was becoming difficult to meet. It is probable some further rough land will be improved the coming season and made available for burial purposes. Your trustees believe it wise to continue their policy of conservative expansion and improvement. The portion of our grounds which has been improved has received careful attention, and lots which have been placed under perpetual care have been given the care required by the bonds which have been given. Our buildings and apparatus are in excellent condition.

There have been 59 interments the past year, viz : Adults 52, children seven. The number includes four veterans of the Civil War. In this cemetery there now lie the remains of one veteran of the Revolution, five of the War of 1812, two of the Mexican War, and 92 of the Civil War. These veterans' graves are all properly marked.

The following statements show the financial condition and the receipts and disbursements of this Board for 1906 :

ANNUAL REPORT

OF THE

TRUSTEES OF SUBURBAN CEMETERIES.

To His Honor, the Mayor, and the Honorable City Councils:

GENTLEMEN:—The secretary of the Board of Trustees of Suburban Cemeteries hereby submits his tenth annual report.

Condition of Cemeteries.

During this year the greater part of the appropriation over and above that actually required for the keeping in good condition of the Suburban Cemeteries has been devoted to the improvement of the Old South. Fully one-fourth or more of this cemetery has been worked over; stones, stumps, roots and the like have been removed; the ground has been graded and grassed over; and headstones to the number of one hundred and fifty have been reset. The work was interrupted at this stage because of a lack of funds; and we would respectfully call the attention of the City Councils to this fact and urge that if possible a larger appropriation may be had for the coming year in order to hasten the completion of these improvements and put this hallowed spot in a condition befitting its historic value.

Evergreen Cemetery has been kept in its usual good condition. We would, however, again remind you that we are without a suitable place to store our tools, and that a small building which would combine a tool house and a chapel is greatly needed and should be erected without further delay.

At Hillside, in addition to the usual care the fence adjoining the road has received two coats of paint which greatly adds to its appearance.

The Gilson Cemetery has received the usual attention.

Interments.

The interments for the year are as follows : Evergreen Cemetery, four ; Old South Cemetery, one, (from out of town) ; Hillside Cemetery, one ; making a total of six burials.

Finances.

Cash in hands of treasurer.....	$101.12

For the Trustees.

REPORT OF CITY PHYSICIAN.

To His Honor, the Mayor, and the Honorable City Councils:

GENTLEMEN:—During the year 1906 218 visits to the homes and 311 office visits were given to the dependent poor of the city, and 14 patients were treated at the police station. Of these patients one died:

George H. Parker, 76 years of age. Death being due to diabetic coma.

There was one birth during the year.

Respectfully submitted,

WILLIAM E. REED, M. D.

City Physician.

REPORT OF BOARD OF HEALTH.

Nashua, N. H., July 19, 1907.

To His Honor, the Mayor and the City Councils of the City of Nashua:---

GENTLEMEN:---In compliance with the city ordinance, the Board of Health herewith submits its annual report for the year ending December 31, 1906. The Board consisting of Mr. G. H. Woodbury, Mr. John M. Earley and Dr. D. M. Shea organized on January 4 with the choice of Mr. Woodbury, clerk. The regular meetings of the Board were held every second and fourth Thursday evenings of the month at eight o'clock at Dr. D. M. Shea's office.

During the past year several complaints were made to the members about certain nuisances existing in various parts of the city.

These were thoroughly looked into by the members of the Board and most of these nuisances were abated.

The number of contagious diseases reported were 23. Among this number were 6 cases of Measles, 7 Diphtheria, 4 Scarlet Fever, 3 Typhoid Fever, 2 Chicken Pox and 1 case of Tuberculosis.

These several houses where these diseases existed were thoroughly fumigated at the proper time.

Respectfully submitted,

DR. D. M. SHEA,

Chairman of Board of Health.

REPORT OF MILK INSPECTOR.

To the Honorable Board of Health of the City of Nashua :

GENTLEMEN :—The number of licenses issued for the year beginning May 1, 1906, has been one hundred and two. There was also one licence issued during the latter part of the year previous making one hundred and three licenses issued making $206.00 collected which was paid into the city treasury.

During the year there were ninety-one samples tested from sixty-six different dealers.

Each sample taken has been tested for percentage of fat, solid not fat, total solids and water and have also been tested for preservatives. There were no preservatives detected in any of the samples taken and I think that the city's milk supply is in a very satisfactory condition.

Respectfully submitted,

FRANK SIMMONS,

Inspector of Milk.

Regulations.

1. The Executive Committee shall determine what patients shall be admitted to the hospital.

2. The Executive Committee shall fix the terms for each patient; Those not able to pay shall be deemed beneficiary.

3. Patients accidentally wounded or otherwise disabled who are taken directly from the place of the accident, shall be received into the hospital if there is room. The Executive Committee, as

soon as possible thereafter, shall determine the price for the patient, and see to the security for the payment.

4. The payment of board shall be secured by the employers or friends of patients, by the authorities of the places where the patients belong, or by the deposit of the pay for one week's board, or more if deemed necessary. The agreement for the stipulated payment shall be in writing.

5. The Executive Committee shall have power to direct the removal of any patient whom they consider to have been improperly admitted.

6. Whenever any patient shall be removed from the hospital without the approval of the attending physicians, the superintendent shall require from the person assuming the responsibility of the removal a written statement to that effect.

7. The Hospital Association will in no case be responsible for any compensation to the physician nor for the treatment.

8. Each patient not a beneficiary, shall be allowed to select his physician, and any beneficiary or city or country patient shall be under the care of the physicians on duty while in the hospital. He shall, at any time deemed necessary, have the benefit of consultation with any member of the staff.

9. The attending physician for the time being shall take charge of all other patients.

REPORT OF EXECUTIVE COMMITTEE.

To the Nashua Hospital Association :—

GENTLEMEN :—The Executive Committee of the Board of Trustees submits the following report for the year ending December 31, 1906.

In compiling facts for your consideration much of great interest to the public must necessarily be omitted, such as the names of patients. the course and character of their diseases, for how long and why they resorted to hospital treatment. These matters are of a private nature, the patients' business only, and are not to be made public property unless with the patients consent.
For the same reason inquiries for details of a case at the hospital, by others than the immediate family and friends of a patient, may often receive brief and apparently unsatisfactory answers. The private affairs of a patient must be safeguarded as much in the hospital as in his own home; and when this principle is generally understood there will be less disappointment and less adverse comment among otherwise well meaning people.

As in the preceding twelve years the hospital needs of this city have been emphasized by the constantly increasing number seeking hospital accommodations. Patients come from all stations in life, from the comfortable homes of the well-to-do to the crowded habitations of the recent emigrants. The latter have especially benefited by this Institution, and but for its existence there would be much suffering and an increased mortality among this class of people.

Payment of one week in advance, except in case of accident or emergency, a rule enforced by the committee for the past year, has improved the finances materially, the unpaid bills being little

more than one half that of last year, and the cash in hand increased in proportion. This rule is to be continued in force and the recent appointment of Mr. James B. Crowley as Admitting Officer will insure its proper observance, as well as the placing of responsibility for payment in cases that come in without funds.

Uncharitable as it may appear on the surface, as the endowment fund at present nets less than $15.00 per year and dependence must be placed entirely upon the income from patients, city appropriation and donations, the existence of the Institution demands strict attention to this matter. It is gratifying to note the large number of people who by generous contributions have shown their interest during the past year, and it is hoped that equal amounts may be secured from similar sources in each succeeding year. Free beds for injured employees are maintained by the Boston & Maine Railroad and by the Estabrook-Anderson Shoe Co., at a cost of $250.00 each year and the same privileges may be secured by any other corporation or individual on application.

Number of out patients admitted during year,	126
Total,	480
Number of patients admitted in moribund condition	11
Number of patients died from accident and disease,	31
Total,	42
Average number of patients in hospital each day of year	15 2-3
Increase in number of patients over previous year,	19
Number of patients in hospital January 1, 1907,	18

At the last meeting of the Trustees, four of the younger physicians of the city were added to the Staff and in assigning their

terms of service it was thought best to reorganize the entire Staff, assigning all members of it to active duty for two months in each year. As now arranged four physicians are on service at the same time and subject to call for all cases that are beneficiary. This plan has produced good results and has awakened new interest in the institution. Once each month the Staff on duty inspects the building from cellar to garret and makes a written report of the same with recommendations for the good of the Hospital to the Executive Committee. These reports are placed on file thus keeping a record of the condition of the building at all times, and all recommendations designed to improve the service are acted upon and carried out as far as our financial condition will permit.

During the year the building has been painted on the outside, the piazza re-tinted and painted and repairs made to every room in the house. A cellar has been excavated under the male ward, a new system of plumbing installed and so arranged that connection can be made with little expense if a laundry is put in at some future time. The back lawn has been graded with material removed from the new cellar and the tent, used in the summer time, placed on a higher and more sanitary position. A large platform built at the ambulance door has proven of great advantage in moving patients to and from the building and as an open air resort for convalescents in favorable weather. New self-closing faucets have been put in throughout the building resulting in a net saving of $56.30 in the water bill. Efforts have been made during the year to reduce the large bill of the Light, Heat and Power Company, and on this line six 32 candle power lights have been discontinued in the Operating Room and a reflector added; new burners have replaced the old; lamps have been used in the office and in the nurses' rooms; and the amount of of work done with gas stoves has been diminished; employees of the company have inspected the pipes and fixtures and their suggestions for promoting economy accepted. The results, however, have been disappointing, this item being far in excess of

the same item during the previous year. The incoming Executive Committee should give early attention to this matter.

The Laundry Bill, always a favorable topic of discussion at the Trustee meetings, shows a very healthy growth over that of last year. We have no Laundry at the hospital, as we never had money enough to build one. It is a serious question as to whether a laundry would be profitable, and if so where it could be placed to advantage. Committees appointed to consider this matter have never, to our knowledge, made a report. The work at the present time is done by Mr. Parker and on a special schedule of prices. The size of the washings vary according to the character of cases in hospital, operative cases and those requiring frequent changes in bedding being most expensive. The maids do all their own washing and the nurses do handkerchiefs, stockings and pay for shirt-waists.

The following tabulated facts may be of interest:—

		Laundry Averages	Total
Number of Abdominal Operations.....	76	$1.00	$76.00
Mastoids.....	6	1.00	6.00
Labor Cases.....	8	1.00	8.00
Skull Fractures...	3	1.00	3.00
Bone Fractures...	11	1.00	11.00
			$104.00
Minor Surgical Operations.....	168	.50	84.00
Adenoids.....	45	.25	11.25
Showing total laundry for operations alone,			$199.25
Twelve nurses, average $1.00 per week, each, for laundry of uniforms.....			624.00
			$823.25

Laundry bill for year.....	1,169.33
Less Operating Room and Uniforms.....	823.25
	$346.08
Daily average in house, 30	
General laundry per head a year,.....	$11.54
General laundry per head a week.....	.22

Our ideas of a laundry bill are formed largely from the figures on the slip that accompanies our collars, cuffs and shirts every week and we lose sight of the pile of clothing, bedding et cetera that is weekly blended with the family wash and for which, happily, we do not think we pay. Outside of the laundry for operating room and uniforms for nurses, which must necessarily be large, the average cost per head of twenty-two cents per week does not appear unreasonable.

Your Committee wish to commend the Matron, Miss Rogers, for her able management during the year and also her valuable Assistant, Miss Heinemann, together with the nurses of the Training School for attention to their respective duties.

The Staff, as always, have responded promptly and cheerfully to calls to duty.

During the year we have lost by death the senior member of our Staff, Dr. E. F. McQuesten. A man of inspiring personality; of great learning; a surgeon and general practitioner with few equals and with no superiors; a friend always; we, with his multitude of friends and patients, mourn.

Respectfully submitted,

A. W. SHEA,

Chairman.

TRAINING SCHOOL REPORT.

During the past year the training school has been continued along the lines laid down by your previous committee. There are in our hospital certain conditions, such as narrow quarters and lack of service rooms, which produce special problems not met with in any of the larger institutions; nevertheless we believe that in the quality of the work done and the grade of nurses turned out, this hospital will compare favorably with more pretentious institutions.

There seems to be an increasing demand for skilled attendants, and our graduates have found constant employment. During the past year, besides the didactic lectures and class work, a course of practical instructions in sick cooking has been carried on,—a course which has been outlined and provided for by our predecessors on the committee. In this work of teaching, and even more, in the actual preparation of the patients' diets, the hospital force is greatly hampered by the lack of a diet kitchen. This need cannot be too strongly or frequently insisted upon, and until some such provision is made it will hardly be possible to avoid a certain amount of criticism as to the care of patients, and the preparation of their meals.

Statistics.

There are at present in the training school ten nurses. During the past year four have graduated, one resigned, and one withdrew at the end of the probation period. Five new nurses have been admitted to the school. Five applications have been filled

out of which two have been withdrawn. One application was not accepted. The pupil nurses have earned for the hospital, either as special nurses within the institution or on outside cases, $389.40, the amount credited to each nurse varying from $3.00 minimum to $60.15 maximum, an average of $29.95.

We think that this use of nurses in outside cases may properly be encouraged, as the income is not inconsiderable, and the experience is of great value to the nurse, preparing her for future work.

SUPERINTENDENT'S REPORT.

Gentlemen of the Board of Education :

I beg to submit the following report, the fortieth of its series.

The problem which confronts the members of a Board of Education is one of most serious and far-reaching importance. Upon them and their successors rests the future welfare of the state. In a little more than a decade, the pupils now occupying the forms in our schoolrooms will have gone forth and will have been absorbed into society,—an active force of the commonwealth. The importance of the elementary school becomes pronounced, when we consider that it must serve as the university to more than half of our future citizens, as more than fifty-six per cent of the school children leave before the end of the eighth grade. The problem therefore becomes complicated since, in laying out the school work, we must consider not only those who will finish the grammar and High School courses, but also the majority who leave school before the close of their grammar course. Great care should be used, not only by the teachers who come into direct contact with the pupils, but also by the supervising officers who plan and carry out the graded course of study, that the well-being of neither of these two classes is sacrificed to the other. Beside providing adequate instruction to those whose school life must necessarily be short, it should be the endeavor of every school official to retain these children in the public schools as long as possible.

MANUAL TRAINING.

As was mentioned in the superintendent's report for last year, there is no one thing which the Board of Education can do that will tend to prolong the school life of the child as to start a thorough course in manual training. In the field of manual train-

ing, the trade school, and domestic science, the laboring people see something which will be of direct assistance toward the future well-being of their children. It is to be expected, therefore, and experience proves it to be true, that in those cities where adequate courses have been maintained, the average school life of the child has been materially lengthened. It is most earnestly urged by your superintendent that this idea of making the schools more practical for the boy and girl who must work for a living should be taken up and carried forward to a successful completion. We certainly are not fulfilling our highest duty toward the education of the youth of our city when we allow this important branch of education to be dormant without practical expression from our hands.

TEACHERS.

The most important means, however, of influencing the educational life of a child rests in the careful selection of teachers. It is the teacher who comes into vital contact with the child, and upon the excellence of his teaching depends not only the mental growth, but the moral uplift,—the character building in the child. It is my belief that the city of Nashua is highly blessed in the character of its corps of teachers. As a body, they are enthused with the highest ideals relative to the children who come under their especial care. In making these statements it is my object to impress upon your minds the fact that it is not the excellence of your buildings, your text books, your supervision, your special teachers,—however important these may be,—which primarily make your schools good or bad, but it is the teachers themselves. Each schoolroom is a unit, which must be conducted perforce along the lines of an absolute monarchy. The teacher is in constant contact with his pupils. His problems and difficulties are real to himself alone, as also are her successes.

MANUAL TRAINING SCHOOL.

Perhaps the most important influence that has lent itself to the making of efficient teachers is our city Training School, which, since its inception fourteen years ago, has been under the control

of Miss Lilly P. Shepard, a woman of the highest educational attainments, one whose influence on the young ladies who have come under her charge has been as beneficial as it has been pronounced.

There are no graduates who do not speak in the highest praise of the helpful instruction which they have received at the hands of this talented woman.

At present over sixty per cent of our elementary schools are taught by graduates of the training school, and the influence which it has had and is having through its graduates upon the rising generations in this city can be easily understood.

HIGH SCHOOL.

The work of the High School during the past year has been satisfactory in all departments. The pupils who have gone from this school to higher institutions of learning have maintained a good standing in their several classes.

Among the courses especially worthy of notice is the commercial department; although it has been in existence but a short time, yet the work accomplished has been of the highest character. I feel no hesitancy in stating that a boy or girl who receives a diploma from this department will be worthy of the confidence of any business house in Nashua.

While speaking of the High School, it may be fitting to mention the fact that the new building which, it will be remembered, had several unique features, has served its purpose admirably. In fact, I have heard of no adverse criticism upon the general plan of the building.

The lunch counter, which is run almost exactly in accordance with the plan in the Fitchburg High School, has been a marked success from the beginning. The janitor has full control of this important matter and deserves great praise for the way in which he has carried out the plan which many High Schools have found a difficult one.

EVENING SCHOOLS.

During the winter of 1906 an evening school was established in the old Main Street building. The rooms were fitted up with tables and settees and wood stoves were used for heating. A much larger class wished to enter the evening school than had been expected, and several additional rooms were obliged to be opened. Eventually there were nearly three hundred pupils enrolled and all eight rooms were occupied. Very few of these three hundred pupils were able to read or write English, and the chief business of teaching was to give them the first principles of reading and writing. By means of the so-called "Phonetic Method," they made remarkable progress, and in the ten weeks during which the school was in session most of them were able to read, not only primers but first readers as well. It is my belief that no money is expended for school purposes which does so much toward elevating the citizenship of the people of Nashua as does the evening school. These people have come among us from Russia, Turkey, Greece and Roumania, and they have come to stay. They desire to become acquainted with our language and our institutions of free government. It is largely a question of the evening school as to whether they do this intelligently and thus become citizens in a true sense or whether they do not. Dollar for dollar, the evening school does more good than any other school run by the city of Nashua. It was a constant surprise, not only to me but to the teachers as well, to note the enthusiasm and the native intelligence displayed by these people. Several of them were well educated in their own tongue and could speak one or two other languages. For unavoidable reasons the evening school, this winter, has had to be omitted. Certainly another year should see it thoroughly established. In fact, it is to be regretted that the course pursued during the past two or three years could not be enlarged, whereby work of a higher grade might be carried on.

KINDERGARTENS.

At present there are four kindergartens in different parts of the city, and the work accomplished by these schools is very creditable. I believe that the influence upon the after-life of the child made during the years while he is attendant upon the kindergarten, is of greater and more lasting effect than upon any future period of his school life. From the ages of four to six, a child is particularly susceptible to proper moral and physical training; and the kindergarten taking the children at this age completes a gap which the primary and grammar school can never fill. This is not because the kindergarten training is better than that of the primary school but is due to the fact that the kindergarten takes the child at the age when his faculties are just blossoming to their fullest development, and the impression made upon his brain at this nascent period, so to speak, becomes a part of his individuality and can never be lost. It seems a pity that more of the children in this city can not have the advantage of kindergarten training. In many places it has been found practical, by increasing their salary, for the same teachers to have charge of kindergartens in the afternoon as well as in the morning. This is notably true in Providence, Rhode Island. The superintendent in his report says:

"Kinkergarten teachers in this city and in other cities have proved in this two session work that their nerve force has not been exhausted any more rapidly than that of other teachers. Kindergartners are not bound by courses of study or by promotion limits. There is a greater freedom in the work, greater freedom among the children, the opening of the mind and the guiding of the energies in the kindergarten should not be and I believe is not more wearing than the training of forty-five primary children who must be taught definite things in definite quantities and in definite time under definite control. In the doing away with this ancient belief and in the knowledge that a kindergartner can do a full day's work for a full day's pay lies the solution of further extension; all day kindergartens in the sections where there

are sufficient children to maintain them; morning and afternoon kindergartens in other sections taught by interchanging groups of teachers. This is not ideal; few school conditions are; but it is the condition that needs solution, not the theory."

If this scheme could be followed in Nashua it would enable us, at very little extra expense, to start kindergarten schools in the O'Donnell school building, at Belvidere, and in other parts of the city, where children are sadly in need of training.

NEW BUILDINGS.

I wish to again bring the attention of the Board of Education to the over-crowded condition at Mt. Pleasant, which necessitates having two rooms on the third floor,—rooms which are wholly without ventilation,—and are undesirable as schoolrooms for many other reasons.

This defect could be overcome if a small, four-room building were erected on the lot which the city owns on the corner of Shattuck and Laton Streets. By moving some of the primary grades to this building the two rooms now occupied on the third floor of Mt. Pleasant could be vacated. It would seem that this would be a far better plan than to go to any additional expense in fitting up these two undesirable rooms.

THE NO-SCHOOL SIGNAL.

The present method of ringing the storm signal for no school is very unsatisfactory; during a storm of any severity it is difficult for the people living at the southern end of Main Street, and also those on Crown Hill, to hear the signal as rung from the bells on the Spring Street and Mt. Pleasant Schools.

I know of no other city possessing a modern fire alarm system which does not use it for giving the no-school signal. I feel sure that a request made by the Board of Education to the Fire Com-

missioners would result in their granting the fire signal for this purpose. I believe it is a matter worthy of your careful consideration. Although the signal is seldom given, yet when it is necessary it affects two or three thousand school children as well as their teachers and parents.

Respectfully submitted.

JAMES H. FASSETT.

REPORT OF DIRECTOR OF MUSIC.

NASHUA, N. H., Jan. 1, 1907.

To Mr. James H. Fassett, Superintendent of Schools.

DEAR SIR: It is a pleasure to submit to you this the tenth annual report of the department of music in the public schools of Nashua under the present director. The department is being carried on with the very best material in the literature of school music from the primary to the High School, inclusive. Such poets as Whittier, Lowell, Bryant, Holmes, Emerson, Longfellow, Whitman, Taylor, Poe, Burns, Tennyson, Keats, the Brownings, and Shakespeare are represented in the texts of the songs our pupils are studying, and the music is from such sources as Gluck, Beethoven, Schumann, Schubert, Wagner, Gounod, and the best American composers.

To give musical expression to the most beautiful words in the language is the endeavor of the department of music. And we find the pupils becoming more and more interested in this beautiful literature. If we are to become a musical nation, we must have before our young Americans everything which is good and beautiful in music; and we must teach to our pupils the best that our American composers have put forth; that which embodies the characteristics and tendencies of American life; its weal and woe—the strongly marked and regular rhythm of our developed and developing national energy; that which is faithful to the American thought and action. To this end we are using the best products of our composers, and with exceedingly encouraging results.

The High School Choral class, one hundred and seventy-five voices, completed its year's work by giving the first concert of the Nashua Music Festival, on the evening of May 3rd, at which time two cantatas were sung, "The Sun-worshippers," by Goring-

Thomas, and "Fair Ellen," by Max Bruch. There were also several part-songs, while the Boston Festival Orchestra played several numbers. The soloists were Mrs. Alice Merritt-Cochrane, soprano; Dr. Ion Jackson, tenor, and Frederic Martin, bass, of New York. The pianist was Miss Helen B. Ward of this city, a graduate of the school. The concert drew educators from several New England cities and New York, and the praise given the Choral class for its work was very gratifying. The representative of the New York Musical Courier, writing in one of its issues, placed the music of this school in a class with two or three other schools in the United States.

The High School has under preparation for the music festival in May the oratorio "The Seven Last Words of Christ," by Theo. Dubois, and "Gallia," a cantata, by Ch. Gounod. The Boston Festival Orchestra and Miss Florence Hinkle, Soprano; Frank Ormsby, tenor, and Emilio de Gogorza, baritone, of New York, have been engaged for this concert.

The undersigned is grateful to you, Mr. Superintendent, to the committee on music, the Board of Education and the teachers for the kind co-operation in the work.

Respectfully submitted,

E. G. HOOD,

Director of Music.

REPORT OF DIRECTOR OF DRAWING.

Mr. James H. Fassett.

DEAR SIR: The year which closes with this report has been an unusually progressive one in the drawing department. Two exhibitions have been held, and several changes and improvements have been made in the course of study.

The first exhibition was in May and was in Main Street School. It was larger and more comprehensive than anything which has been undertaken before. Examples of every line of work which is being done in the city representing the primary, grammar, high and suburban schools were shown. As far as possible drawings of the same general character were grouped together, and the great effort which the teachers made to arrange the work tastefully resulted in a very attractive exhibit. It was very largely attended.

The second exhibition was of quite a different character. The pupils of the Mt. Pleasant School held a sale of artistic articles on Friday, November 23. These articles were chiefly simple little things which the children had made with brush and paints during the drawing periods. The sale was far more successful than anyone had anticipated. A little more than thirty dollars was realized after deducting all expenses. The money was deposited in the First National Bank and is to be used in the spring in some way to beautify the grounds.

I wish to call the attention of the Board of Education to the fact that the grounds around some of the school buildings are utterly uncared for. There are great holes in the Mt. Pleasant yard where the sod and earth have been washed away by rain, and there are trees on which there have been dead limbs for two years at least. No amount of art instruction will ever give children who pass through such a yard daily for nine years, an

aesthetic taste. I cannot believe that in a city where the people almost invariably keep the grounds around their homes in order, and where the grass is cut and the lawns cared for around the library, court house, churches and mill property and that it is the wish of the citizens to have the school yards neglected, and I hope the board will be willing to do something to help along the work which the children have undertaken.

The following changes have been made in the course of study: In the fifth, sixth, seventh, eighth and ninth grades one lesson of eighty minutes is given each week instead of two of forty minutes, and in the second and third grades two lessons of thirty minutes are given instead of five of fifteen minutes. We are making this experiment in hopes that it will be as satisfactory as far as the pupils are concerned and will lighten the work of the teachers. In the water color painting lessons, and in the mechanical drawing lessons a great deal of material has to be distributed. One distribution each week instead of two makes a considerable saving of time and strength.

The pleasant relations which have always existed in the drawing department, and the interest of the teachers and pupils in the work increases every year, so that in this my eighth year in I find more pleasure and encouragement in my work than ever before.

Respectfully submitted,

ELIZABETH L. BUCKINGHAM.
